The Fund is managed by Invesco Global Asset Management DAC, part of the Invesco Group.

- The Fund is actively managed within its objectives and is not constrained by a benchmark.

Risk and Reward Profile

- The Share Class is in risk category 3 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- The value of investments, and income from them, can go down as well as up and you may not get back the full amount you invested.
- Changes in interest rates will result in fluctuations in the value of the Fund.
- The Fund will invest in derivatives (complex instruments) which will result in the Fund being leveraged and may result in large fluctuations in the value of the Fund.
- Debt instruments are exposed to credit risk which is the ability of the borrower to repay the interest and capital on the redemption date.
- This Share Class is denominated in a different currency than that of the base currency of the Fund and may be hedged to mitigate against the effect of exchange rate fluctuations between the two currencies. However, this may not be achieved.
- The Fund may invest in contingent convertible bonds which may result in significant risk of capital loss based on certain trigger events.
- The Fund may hold a large amount of Asset Backed Securities (ABS) (complex instruments) as well as lower quality debt securities which may impact the liquidity of the Fund under certain circumstances.
- The Fund may invest in distressed securities which carry a significant risk of capital loss.
- The Fund will hold a large amount of debt instruments which are of lower credit quality and may result in large fluctuations in the value of the Fund.
- Return on your investment may be adversely affected by variations in exchange rates.
- A more detailed description of risk factors that apply to this Fund is set out in Section 8 of the Prospectus.
