

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## WORLD COMMODITIES, a Sub-fund of the SICAV PARVEST

Class "Privilege H EUR Capitalisation" - ISIN code LU0903144755

This Fund is managed by BNP PARIBAS INVESTMENT PARTNERS LUXEMBOURG, part of the BNP Paribas Group

## Objectives and Investment Policy

The Fund seeks to outperform its benchmark, the Bloomberg Commodity Index (Hedge in EUR) (RI), by getting exposure to commodities indices. The assets are invested in bonds or money market instruments, the performance of which is swapped with the performance of commodity indices, and/or in transferable securities linked to commodity indices.

Income are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

This share class aims at hedging its currency exchange risk against the Fund's portfolio exposure currency. However, the currency exchange risk cannot be completely neutralized as the hedging technique is based on the Fund's NAV.

## Risk and Reward Profile

Lower risk ← Higher risk  
Typically lower rewards ← Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?

Commodity markets may experience significant, sudden price variations that have a direct effect on the valuation of shares and securities that equate to the shares in which a subfund may invest and/or indices that a subfund may be exposed to. Moreover, the underlying assets may evolve in a markedly different way from traditional securities markets (share markets, bond markets etc). In the case of this compartment, implementing long/short strategies including a strong and disciplined risk management process, the risk is lower than for classical commodity compartments.

- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Credit Risk:** This risk relates to the ability of an issuer to honour its commitments: downgrades of an issue or issuer rating may lead to a drop in the value of bonds in which the subfund has invested.
- **Liquidity Risk:** This risk arises from the difficulty of selling an asset at a fair market price and at a desired time due to lack of buyers.
- **Counterparty Risk:** This risk is associated with the ability of a counterparty in a financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- **Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.
- **Derivatives Risk:** When investing in over the counter or listed derivatives, the Fund aims to hedge and/or to leverage the yield of its position. The attention of the investor is drawn to the fact that leverage increases the volatility of the subfund.

For more information on risks, please see the "Investment Risks" section of the Fund's prospectus, which is available at [www.bnpparibas-ip.com](http://www.bnpparibas-ip.com).

## Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	No
This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out).	
Charges taken from the Fund over each year	
Ongoing charges	1.19%
Charges taken from the Fund under specific conditions	
Performance fee	No

The **entry charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser.

The **ongoing charges** figure is based on past expenses determined as of November 2014.

This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

In case of conversion, the investors may be charged a maximum fee of 2.00%.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at [www.bnpparibas-ip.com](http://www.bnpparibas-ip.com).

## Past Performance

- Performance figures are shown for shares classes, for which NAV was continuously calculated during the period from 1st January to 31st December.
- Past performance is not an indicator of future results.
- The ongoing charges of the Fund are included in the calculation of past performance. The entry/exit and conversion fees are excluded from the calculation of the past performance.
- The share class came into existence on 31 May 2013.
- Past performance has been calculated in EUR.
- Performance returns are based on the net asset value with distributable income reinvested.

## Practical Information

- Custodian: BNP PARIBAS SECURITIES SERVICES (Luxembourg)
