OPERATING AND MANAGEMENT PROCEDURES

I - GENERAL CHARACTERISTICS OF THE UNITS:

ISIN code

A units: FR0000974149
D units: FR0011380070
B units: FR0010251108
B2 units: FR0011036920
B3 units: FR0011640952
GC units: FR0011603901
LM units: FR0011640960

Rights attached to the units

The rights of the Fund's co-owners are represented by units, with each unit corresponding to the same fraction of the Fund's assets. Each unitholder has a co-ownership right in the assets of the Fund proportional to the number of units they hold.

The distributable income consists of:

1° The net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.

2° The realised capital gains, net of fees, minus realised capital losses, net of fees, recorded during the financial year, plus net capital gains of the same kind recorded during previous financial years and that have not been subject to distribution or accumulation, plus or minus the balance of the capital gains equalisation accounts (for financial years beginning after 1 January 2013).

The categories of income referenced in points 1° and 2° respectively may be distributed, in full or in part, independently of each other.

Inclusion in a register

The Management Company delegates the management of liabilities to the Custodian.

Voting rights

No voting rights are attributed to the ownership of units. Decisions concerning the Fund are taken by the Management Company. The voting rights attached to the securities held by the Fund are exercised by the Management Company, which has the sole power to take decisions, pursuant to regulations in force. The Management Company's voting policy may be consulted at its registered office or online at www.oddoam.com in accordance with article 314-100 of the AMF General Regulation. Unitholders can obtain a report of the Management Company's voting activities from the Management Company.

Form of units

Listed on Euroclear France
Bearer

Fractions of units

Subscriptions and redemptions in thousandths of units.

Financial year-end

Last stock market trading day in March.
End of first financial year: 31 March 2000.

Tax regime

The Fund is eligible for the French Equity Savings Plan (*Plan d'Epargne en Actions* or PEA). The Fund may be used for life insurance policies.

This prospectus does not purport to set out the tax implications for investors of subscribing, redeeming, holding or selling the Fund's units. These implications will vary, depending on the laws and practices that apply in the country of residence, domicile or incorporation of the unitholders and on their personal situations.

Depending on your tax status, your country of residence or the jurisdiction from which you invest in the Fund, any capital gains and income resulting from the holding of units of the Fund may be subject to taxation. We advise you to consult a tax adviser in relation to the potential consequences of purchasing, holding, selling or redeeming units of the Fund according to the laws of your country of tax residence, ordinary residence or domicile.

Neither the Management Company nor the Promoters shall accept any responsibility whatsoever for the tax consequences that may arise for investors following a decision to purchase, hold, sell or redeem units of the Fund.

Redemption of unit followed by a subscription

As the Fund is made up of several unit classes, a conversion from one class of units by means of a redemption followed by a subscription of another class of units constitutes, for tax purposes, a sale in return for payment of a consideration likely to generate a taxable gain.

Specific provisions:

ISIN code

A units: FR0000974149
D units: FR0011380070
B units: FR0010251108
B2 units: FR0011036920
B3 units: FR0011640952
GC units: FR0011603901
LM units: FR0011640960

Classification

“International equities” fund

Fund of funds

Less than 10% of the net assets.

Investment objective

The Fund's investment objective is to achieve long-term capital growth by outperforming its benchmark index, the MSCI Europe Smid Cap Net Return EUR over a five-year rolling period. The Fund is managed on a discretionary basis.

Benchmark index

The **MSCI Europe Smid Cap Net Return EUR** (index code M7EUSM index) is an index representing small and mid-cap equity markets in 15 developed countries in Europe.

These countries are Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

With 1,124 companies in its portfolio, the index covers approximately 28% of the free-float-adjusted market capitalisation in each country.

It allows the investor to assess the Fund's risk profile. The Fund's performance may differ substantially from that of its benchmark index.

Investment strategy

The strategy is based on an investment process developed by the “small and mid-caps” team.

The investment universe is composed of members of the European Economic Area (EEA) and any other European OECD member countries. Investment outside the EEA and European OECD countries shall not exceed 10% of assets.

The process relies on an active management strategy based on stock-picking. The manager invests in small and mid-cap companies of less than EUR 10 billion (at the time they are first added to the portfolio) which enjoy a real competitive advantage in a market with strong entry barriers and which are highly profitable, thereby enabling them to finance their own long-term development. These characteristics are identified during the analysis conducted by the fund managers, who choose them on a discretionary basis. The investment process is comprised of four stages:

First stage: The manager filters the universe based on economic and financial performance indicators.

The manager favours companies in a position to generate, over the course of a cycle, a greater Return on Capital Employed than the industry average and a positive free cash flow.

Second stage: Fundamental analysis, company visits. The fundamental analysis of stocks aims to verify that the fundamental elements underlying the financial profitability of a company will be preserved and even improved or regained in years to come.

Company visits: the manager will endeavour to validate the suitability and coherence of the company strategy, any foreseeable changes in the company's industry and the stock's sensitivity to the macroeconomic environment or any other theme that may affect the company's fundamentals.

Third stage: Valuation. Companies are valued using two methods: peers (PER, returns, EV/sales, EV/EBIT, etc.) and discounted available cashflows (DCF) based on two scenarios: one optimistic, the other pessimistic. These valuations determine the buy and sell thresholds.

Fourth stage: Portfolio development. Weightings are defined in absolute terms and not in direct relation to a benchmark index.

At the end of this strictly bottom-up process, the manager compares the portfolio's sector allocation to that of the benchmark index. The manager ensures that the portfolio's thematic and sector diversification is sufficient to avoid too great a tracking error versus the benchmark index.

Composition of assets

1 - Assets (excluding embedded derivatives)

- **Equities:**

The Fund will invest:

- a minimum of 75% of its assets in equities of issuers whose registered office is located in the European Economic Area and/or in equities of issuers whose registered office is located in a non-EEA European member country of the OECD.
- in equities of small and mid-cap companies of less than EUR 10 billion (at the time they are first added to the portfolio).
- investments in equities of issuers whose registered office is located in a member country of the OECD outside the European Economic Area shall not exceed 10%.

- **UCITS shares or units:**

Up to 10% of the Fund may be invested in units or shares:

- of French or foreign UCITS that may not invest more than 10% of their assets in units or shares of other UCITS, AIFs or investment funds.
- of French AIFs or AIFs from other EU Member States.
- of investment funds established under foreign law.

The units or shares of these AIFs and investment funds must meet the four criteria under article R 214-13 of the French Monetary and Financial Code, namely: (i) that they are subject to regulations equivalent to those applicable to UCITS and that there is cooperation between the AMF and the regulatory body of the AIF; (ii) that the level of protection granted to unitholders is equivalent to that of UCITS; (iii) that they issue semi-annual and annual reports explaining their activities; and (iv) that they must not themselves invest over 10% of their assets in units or shares of other UCITS, AIFs or foreign investment funds.

The Fund may invest in UCIs in order to generate income from cash or to diversify and stimulate the portfolio. These UCIs may be managed by Oddo Asset Management. French investment funds may be classified as International Equities.

- **Fixed-income products:**

The Fund may invest up to 25% in bonds and debt securities to generate income from cash. The primary instruments used shall be transferable debt securities of short-term maturities, limited to issuers with an AAA rating (Standard & Poor's or equivalent). The Fund may also invest in:

- Treasury bills;
- Fixed rate bonds issued by the Member Countries of the Euro Zone;
- Fixed rate bonds issued by the public corporations of the Euro Zone.

2 - Derivatives

The Fund may invest in all financial futures or options traded on regulated markets or over-the-counter in France and other countries in order to hedge against currency risk so that it remains limited to 30% of the Fund's assets. The instruments used shall be futures, currency swaps and forward exchange contracts. The counterparty shall not be involved with the management of over-the-counter forward financial contracts.

3 - Securities with embedded derivatives:

The Fund may hold convertible bonds and subscription certificates on an ancillary basis so as to generate exposure to equity risk and hedge currency risk. These instruments shall be held without seeking overexposure, up to the limit of 10% of the Fund's net assets.

4 - Deposits:

The Fund may use deposits to optimise the return on the Fund's cash holdings, up to the limit of 20% of its net assets.

Used as part of day-to-day management of the Fund's cash assets, these will contribute to achieving the investment objective based on their level of return.

5 - Cash borrowing:

The Fund may borrow the equivalent of up to 10% of its net assets in cash, in order to:

- cover a temporary delay between incoming and outgoing funds relating to purchases and sales of securities issued on the market, or to cover large redemptions, and;
- on the other hand, to exploit investment opportunities that arise from time to time.

6 - Temporary purchases and sales of securities

In order to optimise its income, the Fund may be overexposed to fixed income, credit and equity markets via securities lending transactions and repurchase agreements up to the limit of 120% of net assets and have leverage of 1.2.

Securities lending and repurchase transactions shall give rise to cash payments which shall be recorded as Fund assets in the form of a financial guarantee in respect of these transactions.

Financial guarantees received as cash shall either be (i) placed as deposits with credit institutions repayable on request or that may be withdrawn and with maturities of less than or equal to twelve months, provided that the credit institution has its registered office in a Member State or, if its registered office is situated in a third country, provided that it is subject to prudential regulations deemed by the AMF to be equivalent to those laid down by EU legislation; (ii) invested in top-tier government bonds; (iii) used in reverse repurchase transactions; or (iv) invested in short-term money market UCIs.

Within the scope of reverse repurchase transactions, the Fund shall receive financial instruments rated at least investment grade by Standard and Poor's (or equivalent) as a financial guarantee and in exchange for available cash assets held by the Fund.

Temporary purchases and sales of securities shall be carried out with a European Union credit institution that may belong to the Oddo group.

For further information, please refer to the Fund's annual report.

Risk profile

Your money will mainly be invested in financial instruments selected by the Management Company. These instruments are subject to the market's movements and fluctuations. The risks identified by the Management Company and presented below are not exhaustive. Investors are responsible for assessing the risk of any investments they make, with the assistance of a financial investment adviser where applicable, and for ensuring that the investment envisaged is suited to their financial situation and ability to assume financial risks.

Please refer to the Key Investor Information Document for information on the risk category to which this Fund belongs.

In particular, the Fund will be exposed to the following risks:

Risk of capital loss:

The Fund is not guaranteed or protected; investors may not get back their initial investment in full.

Equity risk:

The Fund invests, either directly or indirectly and up to a maximum of 100%, in one or more equity markets that may experience significant fluctuations. The Fund's net asset value could fall during periods in which the equity market is falling.

Risk associated with holding small and medium capitalisations:

The Fund may be exposed to small and medium capitalisations. Price fluctuations, both upward and downward, are more acute and more abrupt than for large capitalisations, and may therefore result in sharp variations in the net asset value. Furthermore, the low volumes traded on these markets may result in liquidity risk. This type of investment may affect the Fund's valuation and the prices at which the Fund may be obliged to liquidate its positions, particularly in the case of large redemptions, and may even make it impossible for the Fund to sell its holdings, as a result of which the Fund's net asset value may fall.

Interest rate risk:

This corresponds to the risk linked to a rise in bond market interest rates, which causes bond prices and therefore the net asset value of the Fund to fall.

Credit risk:

This is the risk of a potential downgrading of an issuer's credit rating, or in an extreme case its default, which would have a negative impact on the price of the debt securities issued and therefore on the net asset value of the Fund. This could result in a capital loss. Credit risk varies according to expectations, bond maturities and the level of confidence in each issuer. This may restrict the liquidity of the securities of a particular issuer and have a negative impact on the net asset value of the Fund, especially if the Fund liquidates its positions in a market where transaction volumes are low.

Currency risk:

This risk is linked to portfolios invested fully or partially in securities denominated in currencies other than the Fund's reference currency and corresponds to the variation in the exchange rate between these currencies and the Fund's reference currency. As such, the value a security may be affected by a change in the value of its reference currency against the euro, even though its value in its base currency may not change, thereby causing the net asset value of the Fund to fall.

Risk associated with discretionary management:

This risk is linked to the investment style, which is based on expectations regarding the performance of the various markets. There is a risk that the Fund may not be invested in the best-performing markets or securities at all times. The Fund's performance therefore depends on the manager's ability to anticipate movements in the markets or in individual securities. This risk may result in a fall in the net asset value of the Fund and a capital loss for the investor.

Counterparty risk:

This is the risk of a counterparty's collapse, causing it to default on payment. The Fund may be exposed to the counterparty risk caused by the use of forward financial instruments contracted over-the-counter with credit institutions or contracts for the temporary purchase or sale of securities. The Fund is therefore exposed to the risk that one of these credit institutions may not be able to honour its commitments in connection with such instruments.

Certain contracts exposing the Fund to counterparty risk may be concluded with a company belonging to the Oddo group

Risk linked to the use of overexposure:

In relation to the practice of securities lending in particular, exposure must not exceed 120% of the Fund's net assets, or leverage of 1.2. The risk therein relates to a fall in the net asset value of the Fund if market developments are adverse. In the event of unfavourable changes in the strategies used, the net asset value may fall more significantly than the markets to which the Fund is exposed. This leverage has the effect of amplifying expected gains, but also heightens the risk of losses.

Guarantee or protection

None (neither the capital nor the performance are guaranteed).

INVESTORS AND UNITS

Target investors	<p>All investors.</p> <p>A units are primarily aimed at retail investors.</p> <p>D units are primarily aimed at retail investors.</p> <p>B units are primarily aimed at institutional investors.</p> <p>B2 units are reserved for Italian institutional investors, Swiss investors and for UCITS managed by Oddo Asset Management.</p> <p>B3 units are reserved exclusively for the Oddo Equity Europe Avenir RDR sub-fund of the Oddo Funds SICAV.</p> <p>GC units are reserved for Génération Vie, to represent unit-linked products subscribed as part of “advisory management” contracts of the FIPAVIE range.</p> <p>LM-EUR units are reserved for institutional investors domiciled in Latin American and Near Eastern countries, excluding prohibited countries included on the Financial Action Task Force (FATF) list and on the current French list.</p>									
Typical investor profile	<p>The Fund is intended for investors seeking exposure to international equities over a period of five years, who are willing to accept the risks arising from such exposure.</p> <p>The amount that is appropriate to invest in this Fund depends on your personal situation. To determine this amount, investors should consider their personal wealth/assets, their current financial needs and those in five years as well as their willingness to accept risks or their preference for a more prudent investment. It is also highly recommended that investors sufficiently diversify their investments so as not to be exposed solely to the risks of this Fund.</p>									
Recommended investment horizon	5 years									
Distribution of income	<p>Distributable income:</p> <table border="0" style="width: 100%;"> <tr> <td style="width: 30%;">Distributable income</td> <td style="width: 30%;">A, B, B2, B3, GC and LM Accumulation units</td> <td style="width: 40%;">D Distribution units</td> </tr> <tr> <td>Allocation of net income</td> <td>Accumulation</td> <td>Distributed in full, or with a portion carried forward as decided by the management company</td> </tr> <tr> <td>Allocation of net realised capital gains or losses</td> <td>Accumulation</td> <td>Distributed in full, or with a portion carried forward as decided by the management company</td> </tr> </table> <p>A, B, B2, B3, GC and LM units: accumulation D units: distribution Distribution schedule: Accumulation units: no distribution Distribution units: The proportion of distributable income for which distribution is decided by the Management Company is paid annually. Centralisation of subscription and redemption requests	ODDO ET CIE 12, Bd de la Madeleine – 75009 Paris The Fund's promoters must send subscription and/or redemption orders to the Centralising Agent no later than the centralisation cut-off time. Any order received by the Centralising Agent after this time will be executed at the following net asset value. Promoters may apply their own cut-off time, which may be earlier than the cut-off time mentioned above, in order to take into account the time required to transmit orders to the centralising agent.
Date and frequency of calculation of net asset value	The net asset value is calculated daily, according to the Euronext Paris calendar, with the exception of public holidays on the French Stock Exchange.
Place and methods of publication or communication of net asset value	This information can be obtained on a daily basis from the Management Company (Oddo Asset Management) and the Custodian (Oddo et Cie) at 12, Boulevard de la Madeleine, 75009 Paris, and from the website http://www.oddoam.com/ .

INFORMATION ON FEES, EXPENSES AND TAXATION

Fees and expenses	Subscription and redemption fees: Subscription fees increase the subscription price paid by the investor, while redemption fees decrease the redemption price. The fees charged by the Fund serve to offset the costs incurred by the Fund to invest and disinvest investors' monies. Fees not paid to the Fund are paid to the Management Company, the promoter, etc.
--------------------------	--

Fees payable by the investor on subscriptions and redemptions	Basis	Rate A, D, B and B2 units
Subscription fee not payable to the Fund	NAV per unit x number of units	4% maximum
Subscription fee payable to the Fund	NAV per unit x number of units	None
Redemption fee not payable to the Fund	NAV per unit x number of units	None
Redemption fee payable to the Fund	NAV per unit x number of units	None

Fees charged to the Fund	Basis	Rate A, D, B and B2 units
Management fees not payable to the portfolio management company (statutory auditor, custodian, distributors, lawyers)	Net asset value, UCITS excluded	A and D units: Maximum 2% inclusive of tax
		B, B2 and GC and LM units: Maximum of 1%, inclusive of tax
		B3 units: Maximum 0.75%, inclusive of tax
Performance fees	Net assets	A, D, B, B3 and GC units: A maximum of 20% of the Fund's outperformance relative to the benchmark index (MSCI Europe Smid Cap Net Return EUR), provided that the Fund's performance is positive*. LM units: None.
Transaction fees charged by service providers: - Custodian: 100%	Payable on each transaction	Equities: depending on the markets, with a maximum of 0.50% inclusive of tax Bonds: 0.03% inclusive of tax Money market instruments and derivatives: None

* **Performance fee:** a performance fee based on a comparison between the Fund's performance and that of the benchmark index over the reference period.

The Fund's performance is determined on the basis of its book value after taking into account fixed management fees and before deduction of the performance fee.

Once the Fund records a positive performance that exceeds that of its benchmark index in a given reference period, a provision of a maximum of 20% of this outperformance is established upon each NAV calculation.

In the event that the Fund underperforms its benchmark index between two net asset values, any previously accumulated provision shall be reduced accordingly. The amounts deducted from the provision cannot exceed the amount previously accumulated.

This variable fee will only be definitively transferred to the Management Company at the end of the reference period and only if, over the reference period, the Fund's performance is positive and exceeds that of its benchmark index. It is deducted from the last NAV calculation of the financial year and paid annually to the Management Company, provided that on that date the reference period is at least equal to one year.

A detailed description of the method used to calculate the performance fee may be obtained from the Management Company.

Methods of calculating and sharing the return on temporary purchases and sales of securities

The remuneration received from temporary sales of securities (lending and repurchase of securities) is repaid to the Fund, less operating costs invoiced by the counterparty, potentially amounting to up to 50% of this remuneration.

With respect to temporary purchases of securities (reverse repurchase transactions), the Fund is the direct counterparty in such transactions and receives the full amount of the remuneration.

The Management Company does not receive any remuneration in respect of temporary purchases and sales of securities.

In the context of temporary sales of securities, the service provider used by Fund shall be a credit institution with its registered office located within a European Union member state. This service provider shall act independently of the Fund and shall systematically act as the counterparty in market transactions. This service provider may belong to the Odfo group. For further information, please refer to the Fund's annual report.

All of these charges are quoted inclusive of tax.
For further information, please refer to the Fund's annual report.

Procedure for the selection of intermediaries: Intermediaries and counterparties are selected by management staff using a competitive tendering procedure from a predefined list. This list is drawn up using precise selection criteria laid down in the market intermediary selection policy which may be consulted on the Management Company's website.

For further information, please refer to the Fund's annual report.

INVESTMENT RULES

Regulatory ratios applicable to the Fund: The legal investment rules applicable to the Fund are those that govern UCITS investing no more than 10% of their assets in other UCIs, as well as those applicable to the AMF's "International Equities" classification.

GLOBAL RISK

The Fund's overall risk is calculated using the commitment method.

ASSET VALUATION AND ACCOUNTING RULES

Asset valuation rules:

The calculation of the net asset value per unit is subject to the following valuation rules:

- Financial instruments and transferable securities traded on regulated markets are valued at their market price using the following principles:
- The valuation is based on the last official market price.

The market price used depends on the market on which the instrument is listed:

European markets:	Last market price on the net asset value calculation day
Asian markets:	Last market price on the net asset value calculation day
North and South American markets:	Last market price on the net asset value calculation day

The prices used are those obtained from financial information providers and available on the following day at 09:00 (Paris time): Fininfo or Bloomberg. In the event that no price is available for a security, the last known price is used.

However, the following instruments are valued using the following specific valuation methods:

- financial instruments that are not traded on a regulated market are valued under the Management Company's responsibility at their foreseeable sale prices.
In particular, transferable debt securities and similar securities that are not traded in large volumes are valued by means of an actuarial method; the reference rate used is that applied to issues of equivalent securities plus or minus, where applicable, a differential reflecting the issuer's specific characteristics. Nevertheless, transferable debt securities with low sensitivity and a residual maturity of less than or equal to three months may be valued using the straight-line method.
- contracts (futures, options or swap transactions concluded on over-the-counter markets) are valued at their market value or at a value estimated according to the terms and conditions determined by the Management Company. The method for valuing off-balance sheet commitments consists in valuing futures contracts at their market price and in converting options into the equivalent value of the underlying.

The prices used for the valuation of futures, options or swap transactions are based on those of the underlying securities. They vary depending on the market on which the instrument is listed:

European markets:	Settlement price on the net asset value calculation day if different from last price
Asian markets:	Last market price on the net asset value calculation day if different from last price
North and South American markets:	Last market price on the net asset value calculation day if different from last price

In the event that no price is available for a future or option contract, the last known price is used.

Securities subject to a temporary acquisition or sale agreement are valued in accordance with the regulations in force. Securities received under repurchase agreements are recorded on their acquisition date under the heading "Receivables on securities received under a repurchase agreement (pension)" at the value fixed in the contract by the counterparty of the liquidity account concerned. For as long as they are held they are recognised at that value plus the accrued interest from the securities in custody. Securities transferred under repurchase agreements are withdrawn from their account on the date of the transaction and the corresponding receivable is booked under the heading "Securities transferred under a repurchase agreement (pension)"; they are valued at their market value. Payables on securities transferred under repurchase agreements is recorded under the heading "Payables on securities transferred under a repurchase agreement (*pension*)" by the counterparty of the liquidity account concerned. It is maintained at the value determined in the contract plus any accrued interest on the debt.

- Other instruments: Units or shares of UCITS are valued at their last known net asset value.
- Financial instruments whose prices have not been determined on the valuation day or whose prices have been adjusted are valued under the Management Company's responsibility at their foreseeable sale prices. These valuations and their justification are communicated to the Statutory Auditor at the time of the audit.

Accounting methods:

Income accounting:

The interest on bonds and debt securities is calculated using the accrued interest method.

Transaction cost accounting:

Transactions are recorded excluding fees.

REGULATIONS

ODDO AVENIR EUROPE

TITLE 1 - ASSETS AND UNITS

Article 1 - Co-ownership units

The co-owners' rights are represented by units, with each unit corresponding to the same fraction of the Fund's assets. Each unitholder has a co-ownership right in the assets of the Fund proportional to the number of units they hold.

The term of the Fund is 99 years starting from its inception, except in the event of early dissolution or extension as set forth in the present regulations.

Unit classes:

The characteristics of the various classes of units and their eligibility requirements are described in the Fund's prospectus.

The different classes of shares may:

- apply different dividend policies (distribution or accumulation);
- be denominated in different currencies;
- be charged different management fees;
- bear different subscription and redemption fees;
- have a different nominal value;
- be automatically hedged against risk, in part or in full, as defined in the prospectus. This hedge is created using financial instruments that reduce to a minimum the impact of the hedging transactions on the Fund's other unit classes;
- be reserved for one or several distribution networks.

Following the decision of the Board of Directors of the Management Company, units may be sub-divided into thousandths, referred to as fractions of units.

The provisions of the regulations governing the issue and redemption of units shall apply to fractions of units, whose value shall always be proportionate to that of the units they represent. Unless otherwise provided, all other provisions of the regulations relating to units shall apply to fractions of units without any need to make a specific provision to that end.

Lastly, the Board of Directors of the Management Company may decide, at its own discretion, to sub-divide the units by issuing new units, which shall be allocated to unitholders in exchange for their existing units.

Article 2 - Minimum assets

Units may not be redeemed if the Fund's assets fall below EUR 300,000; if the assets remain below this amount for a period of 30 days, the portfolio management company shall make the necessary provisions to liquidate the Fund in question, or to carry out one of the operations mentioned in article 411-16 of the AMF general regulation (transfer of the UCITS).

Article 3 - Issue and redemption of units

Units are issued at any time following receipt of subscription requests from unitholders, on the basis of their net asset value plus a subscription fee, where applicable.

Subscriptions and redemptions are executed under the conditions and according to the procedures defined in the Fund's prospectus.

Units of the Fund may be listed on a stock exchange in accordance with the regulations in force.

Subscriptions must be fully paid up on the day the net asset value is calculated. They may be made in cash and/or by a contribution in kind in the form of financial instruments. The portfolio management company is entitled to refuse any securities offered and, for that purpose, must communicate its decision within seven days of the date on which the securities were tendered. If they are accepted, the securities contributed in kind are valued according to the rules laid down in article 4 and the subscription is based on the first net asset value following acceptance of the relevant securities.

Redemptions are made exclusively in cash, except in the event of liquidation of the Fund when unitholders have agreed to be reimbursed in kind. They are settled by the registrar within a maximum of five days from the valuation day of the units.

However, if in exceptional circumstances the redemption requires the prior sale of assets held in the Fund, this deadline may be extended to a maximum of 30 days.

With the exception of a succession or an inter vivos gift, the sale or transfer of units between unitholders, or between unitholders and third parties, is treated as a redemption followed by a subscription; if this involves a third party, the sale or transfer amount must, where applicable, be supplemented by the beneficiary in order to at least reach the minimum subscription amount stipulated by the Fund's prospectus.

In application of article L.214-8-7 of the French Monetary and Financial Code, the redemption of units by the Fund as well as the issue of new units may be suspended on a temporary basis by the portfolio management company in exceptional circumstances and if this is deemed necessary to protect the interests of unitholders.

If the net assets of the Fund have fallen below the minimum threshold set by the regulations, no redemptions can be carried out.

A minimum subscription amount may be applied according to the procedures set out in the Fund's prospectus.

In application of the second paragraph of article L. 214-8-7 of the French Monetary and Financial Code, the Fund may stop issuing units.

In objective situations leading to the closure of subscriptions, such as a maximum number of units or shares issued, a maximum amount of assets reached or the expiry of a fixed subscription period. These objective situations are described in the Fund's prospectus.

Article 4 - Calculation of the net asset value

The net asset value of the units is calculated in accordance with the valuation rules specified in the Fund's prospectus.

Contributions in kind may comprise only stocks, securities, or contracts admissible as assets of UCITS; they are valued according to valuation rules governing the calculation of the net asset value.

TITLE 2 - OPERATION OF THE FUND

Article 5 - The portfolio management company

The Fund is managed by the portfolio management company in accordance with the Fund's investment objectives.

The portfolio management company shall act in all circumstances on behalf of the unitholders and has the exclusive right to exercise the voting rights attached to the securities held in the Fund.

Article 5a - Operating rules

The instruments and deposits which are eligible to form part of the Fund's assets as well as the investment rules are described in the Fund's prospectus.

Article 6 - The Custodian

The custodian carries out the duties incumbent upon it under the legal and regulatory provisions in force as well as those to which it has contractually agreed with the portfolio management company. In particular, it must ensure that decisions taken by the portfolio management company are lawful. Where applicable, it must take all protective measures that it deems necessary. In the event of a dispute with the portfolio management company, it shall inform the *Autorité des marchés financiers*

Article 7 - The Statutory Auditor

A statutory auditor is appointed by the governing body of the portfolio management company for a term of six financial years, subject to the approval of the *Autorité des marchés financiers*.

The statutory auditor certifies the accuracy and consistency of the financial statements.

The statutory auditor may be re-appointed.

The statutory auditor is obliged to notify the *Autorité des marchés financiers* promptly if, in the course of its duties, it becomes aware of any fact or decision concerning the undertaking for collective investment in transferable securities which is liable to:

1. Constitute a breach of the legal and regulatory provisions governing this undertaking and is likely to have significant consequences for its financial position, income or assets;
2. Impair its continued operation or the conditions thereof;
3. Lead to the expression of reservations or a refusal to certify the financial statements.

Assets will be valued and exchange ratios will be determined for the purpose of any conversion, merger or split under the statutory auditor's supervision.

The statutory auditor shall assess all contributions in kind under its responsibility.
The statutory auditor shall check the composition of the assets and other information before any publication.
The statutory auditor's fees are determined by mutual agreement between the auditor and the Board of Directors of the portfolio management company on the basis of an agenda indicating all duties deemed necessary.
The statutory auditor certifies the financial statements serving as the basis for the payment of interim dividends.

The statutory auditor's fees are included in the management fees.

Article 8 - The financial statements and the management report

At the end of each financial year, the portfolio management company prepares the financial statements and a report on the management of the Fund during the last financial year.

The portfolio management company shall prepare an inventory of the assets at least twice yearly and under the supervision of the Custodian.

The portfolio management company shall make these documents available to unitholders within four months of the financial year-end and shall notify them of the amount of income attributable to them: these documents shall be sent by post if expressly requested by the unitholders, or made available to them at the office of the portfolio management company.

TITLE 3 - APPROPRIATION OF INCOME

Article 9 - Appropriation of income and distributable income

The net income for the financial year is equal to the amount of interest, arrears, dividends, premiums and prizes, and directors' fees as well as all income generated by the securities held in the portfolio of the Fund, plus income generated by temporary cash holdings, less management fees and borrowing costs.

The distributable income consists of

1° The net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.

2° The realised capital gains, net of fees, minus realised capital losses, net of fees, recorded during the financial year, plus net capital gains of the same kind recorded during previous financial years and that have not been subject to distribution or accumulation, plus or minus the balance of the capital gains equalisation accounts (for financial years beginning after 1 January 2013).

The distributable income consists of

1° The net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.

2° The realised capital gains, net of fees, minus realised capital losses, net of fees, recorded during the financial year, plus net capital gains of the same kind recorded during previous financial years and that have not been subject to distribution or accumulation, plus or minus the balance of the capital gains equalisation accounts (for financial years beginning after 1 January 2013).

The categories of income referenced in points 1° and 2° respectively may be distributed, in full or in part, independently of each other.

The management company decides on the allocation of net income.

For each unit class, where applicable, the Fund may adopt one of the following methods:

- Pure accumulation: distributable income shall be fully accumulated, with the exception of those amounts which are subject to compulsory distribution by law;
- Pure distribution: income shall be fully distributed, rounded off to the nearest figure; the Fund may pay interim dividends;
- For funds that wish to choose whether to accumulate and/or distribute income: the management company decides on the allocation of income each year.

The Management Company decides on the allocation of net income according to the distribution of income provided for in the prospectus and may pay interim dividends where applicable.

TITLE 4 - MERGER - SPLIT - DISSOLUTION – LIQUIDATION

Article 10 - Merger - Split

The portfolio management company may either merge all or part of the Fund's assets with another fund under its management, or split the Fund into two or more common funds.

Such mergers or splits may only be carried out after unitholders have been notified. They give rise to the issue of a new certificate indicating the number of units held by each unitholder.

Article 11 - Dissolution - Extension

If the assets of the Fund remain below the amount set in article 2 above for thirty days, the portfolio management company shall inform the *Autorité des marchés financiers* and shall dissolve the Fund, except in the event of a merger with another fund.

The portfolio management company may dissolve the Fund before term. It shall inform the unitholders of its decision, after which no further subscription or redemption requests shall be accepted.

The portfolio management company shall also dissolve the Fund if a request is made for the redemption of all of the units, if the Custodian's appointment is terminated and no other custodian has been appointed, or upon expiry of the Fund's term, unless such term is extended.

The portfolio management company shall inform the AMF by post of the dissolution date and procedure. It shall send the Statutory Auditor's report to the AMF.

The portfolio management company may decide to extend the Fund's term, subject to the agreement of the Custodian. Its decision must be taken at least 3 months prior to the expiry of the Fund's term and must be communicated to the unitholders and the *Autorité des marchés financiers*.

Article 12 - Liquidation

In the event of dissolution, the portfolio management company or the Custodian shall act as liquidator; otherwise, the liquidator shall be appointed by the court at the request of any interested party. To this end, they shall be granted the broadest powers to realise assets, pay off any creditors and allocate the available balance among the unitholders in the form of cash or securities.

The statutory auditor and the Custodian shall continue to carry out their duties until the end of the liquidation proceedings.

TITLE 5 – DISPUTES

Article 13 - Competent courts - Jurisdiction

Any disputes relating to the Fund that arise during the Fund's lifetime or during its liquidation, either among the unitholders or between the unitholders and the portfolio management company or the Custodian, shall be subject to the jurisdiction of the competent courts.
